

AVIATION & AIRPORT OPERATIONS PROGRAMME

Airport Passenger Ground Services

Build the confidence, systems knowledge and service skills to support passengers from check-in to boarding and beyond.

PRACTICAL • CAREER-READY • INDUSTRY-ALIGNED

THE PROGRAMME

Your gateway to airport passenger service.

Designed for freshers and travel enthusiasts, this programme introduces the operational procedures, safety protocols, customer-care standards and communication techniques used across the passenger journey.

OPERATE

Understand frontline passenger processes and airport coordination.

COMMUNICATE

Support travellers clearly in multicultural environments.

RESPOND

Handle complaints, disruption and special assistance professionally.

WHAT YOU WILL MASTER

Support every stage of the passenger journey.

01 CHECK-IN

Passenger records, seat assignment and document verification.

02 BAGGAGE

Acceptance, tagging, restrictions and through check-in.

03 BOARDING

Gate preparation, control, final checks and close-out.

04 SERVICE

Clear assistance, complaint handling and special needs.

05 SECURITY

Screening awareness, restricted zones and coordination.

06 RECOVERY

Professional support during delays and disruptions.
