

PROFESSIONAL AVIATION TRAINING

Airport Terminal Ground Handling

Passenger service. Terminal precision. Career-ready skills.

PRACTICAL • INDUSTRY-ALIGNED

THE PROGRAMME

Start where every journey begins.

The Airport Terminal Ground Handling course is a practical starting point for learners who want to work in airport passenger operations.

Build confidence in check-in, boarding, baggage handling and terminal announcements while understanding the fast-paced coordination behind safe, efficient ground operations.

DESIGNED FOR

Beginners ready to enter aviation.

Customer service • Safety procedures • Communication • Airport regulations

WHAT YOU WILL GAIN

Operate with clarity.

01

Passenger Service

Assist passengers at check-in counters, boarding gates and arrival areas while maintaining high service standards.

02

Baggage Accuracy

Handle tagging, tracing and mishandled baggage processes with care and attention to detail.

03

Team Coordination

Collaborate with airline crew, ground handlers and security personnel to support smooth operations.

04

Professional Communication

Use aviation terminology, announcements and service language with confidence.

**Precision on the ground.
Confidence at every touchpoint.**

Know the system.
