

PROFESSIONAL CERTIFICATION PREPARATION

PMP

PROJECT MANAGEMENT PROFESSIONAL TRAINING

Lead with clarity. Deliver with confidence.

FACE-TO-FACE • VIRTUAL INSTRUCTOR-LED

Preparation aligned to the PMI Exam Content Outline

Built for real-world leadership

PROGRAMME OVERVIEW

The Project Management Professional (PMP) is a globally recognised certification for project leaders. This preparation programme develops the leadership, strategic and technical judgement needed to deliver complex work across predictive, agile and hybrid environments.

IDEAL FOR

- Project managers and project leads seeking professional certification.
- Engineers, architects and technical professionals managing projects.
- Team leaders and coordinators progressing into project leadership.
- Construction, IT, oil & gas, aviation, logistics and operations professionals.
- Programme, PMO, risk, procurement and business professionals.
- Leaders working across predictive, agile and hybrid environments.

ENTRY PATHWAYS

Four-year degree: 36 months leading projects + 35 hours project management education.

Secondary degree: 60 months leading projects + 35 hours project management education.

Eligibility is subject to PMI's current requirements. An active CAPM may satisfy the education requirement.

DOMAIN 01 • 42% OF EXAM

PEOPLE

Lead, motivate and guide high-performing teams.

Lead & empower

Set a clear vision, choose the right leadership style and delegate authority.

Resolve conflict

Interpret context, identify root causes and apply an effective resolution strategy.

Build performance

Create ground rules, assess capability, recognise progress and remove blockers.

Engage stakeholders

Negotiate agreements, build shared understanding and collaborate with purpose.

Enable virtual teams

Support distributed colleagues with strong communication and engagement practices.

Apply emotional intelligence

Use self-awareness and situational awareness to improve team interactions.

DOMAIN 02 • 50% OF EXAM

PROCESS

EXECUTE • CONTROL • DELIVER
