

PROFESSIONAL AVIATION TRAINING

Ground Handling Services

Two essential airport operations tracks. One career-ready programme.

PRACTICAL • INDUSTRY-ALIGNED • CAREER-FOCUSED

THE PROGRAMME

One programme. Two operational worlds.

Build a complete understanding of passenger-facing terminal operations and time-critical airside ramp services.

TERMINAL OPERATIONS

- Check-in, boarding and arrival assistance
- Travel documentation and passenger communication
- Baggage processes and mishandled baggage support
- Customer service, safety and airport coordination

17 CORE TOPICS

PASSENGER-FIRST

PRACTICAL SCENARIOS

RAMP OPERATIONS

- Aircraft turnaround and ramp coordination
- Ground support equipment and safe positioning
- Baggage, cleaning, catering and servicing support
- Airside safety, security and communication

8 FOCUSED MODULES

SAFETY-LED

TURNAROUND-READY

LEARNING OUTCOMES

Confident at the terminal.

Develop the skills to support passengers accurately, professionally and calmly across the airport journey.

- 01** Assist passengers at check-in, boarding gates and arrival areas.
- 02** Apply professional communication and announcement techniques.
- 03** Verify essential passenger and travel documentation.
- 04** Handle baggage tagging, tracing and mishandled baggage procedures.
- 05** Work effectively with airline, security and ground-handling teams.
- 06** Navigate terminal zones, arrival flows and passenger service points.

COURSE CURRICULUM

Terminal curriculum I

01 Aviation Foundations

History of aviation • ground handling evolution • regulatory authorities

02 Aviation Language

ICAO phonetic alphabet • 24-hour clock • UTC and time-zone conversion

03 Industry Codes

Airline abbreviations • IATA airport codes • IATA airline codes

04 Passenger Flow

Airport handling flowchart • check-in • boarding • arrival processes

05 Safety & Compliance

Dangerous goods classifications • safe handling guidelines

06 Travel Information

TIM • visa and entry requirements • health and vaccination information

07 Documentation

Passport and visa checks • accurate information verification

08 Terminal Operations

Announcements • terminal zones • arrival, baggage claim and customs support

COURSE CURRICULUM

Terminal curriculum II

01 Mishandled Baggage

Types of baggage issues • tracing and reporting • complaint resolution

02 Cabin & Seating

Cabin classes • exit rows • special seating • service zones

03 Customer Service

Professional behaviour • passenger assistance • service recovery

04 Team Coordination

Airline crew • ground handlers • security and airport stakeholders

05 Communication

Clear announcements • operational terminology • escalation

06 Practical Application

Scenario-based passenger handling and documentation checks

LEARNING OUTCOMES

Safe on the ramp. Sharp on turnaround.

Understand the equipment, zones, communication and coordination that keep aircraft ground operations safe and on schedule.

- 01** Recognise aircraft characteristics, critical zones and safety clearances.
- 02** Support baggage handling, cleaning, catering, water and lavatory services.
- 03** Understand basic GSE types, inspections, positioning and removal timelines.
- 04** Apply SOPs for ramp movement, sequencing and turnaround coordination.
- 05** Use PPE, identify hazards and report incidents or near misses.
- 06** Follow airside security, access-control and suspicious-item procedures.

COURSE CURRICULUM

Ramp curriculum

01 Airside & Ramp Services

Airside environment • service roles • stakeholders
• ground-time impact

02 Aircraft & Turnaround

Aircraft types • workflows • parking guidance •
critical zones

03 On-Ground Services

Cabin cleaning • catering • water and lavatory •
waste and hygiene

04 Ground Support Equipment

Tugs • belt loaders • GPU • inspection • safe
positioning

05 Standard Procedures

Routing • timing • ramp coordination • cockpit and
cabin communication

06 Airside Safety

PPE • hazard identification • safe zones •
incident reporting

07 Security Awareness

Access control • badges • incident response •
suspicious behaviour

08 Future of Ramp Services

Automation • sustainability • electric GSE •
performance data

INTEGRATED OPERATIONS

See the whole turnaround.

Understand how passenger, baggage, terminal and ramp teams connect from check-in to departure.

01

CHECK-IN

Documentation, seating and baggage acceptance

02

GATE

Announcements, boarding and passenger support

03

BAGGAGE

Tagging, reconciliation and transfer to ramp

04

RAMP

GSE, loading, servicing and safety coordination

05

DEPARTURE

Final checks, communication and on-time release

CAREER PATHWAYS

Launch your airport operations career.

The combined programme supports entry-level and progression pathways across passenger service, baggage, ramp and turnaround teams.

01 Passenger Service Agent

02 Baggage Handling Agent

03 Ramp Agent

04 Airline Customer Service Agent

05 Turnaround Coordinator

06 Ground Handling Operations Officer

ENTRY REQUIREMENTS

Minimum high-school education / Grade 10 or equivalent

Basic computer skills • Suitable for beginners and working professionals

WHY ENTREPOT

Why choose Entrepot?

Industry-aligned learning designed to build practical skills, professional confidence and career readiness.

- KHDA-Dubai approved programmes and leading international certifications
- Flexible online, offline and hybrid learning options
- Experienced and certified industry trainers
- Convocations, webinars, seminars and career counselling
- Grooming, CV and interview preparation, plus career-focused value-adds
- Special offers, instalment plans and Student Club membership
- 200+ approved, industry-relevant and job-oriented courses

Your next level starts here.
