

AVIATION GROUND OPERATIONS TRAINING

Airport Ramp Services Course

Safety. Precision. Turnaround excellence.

PRACTICAL • CAREER-READY

THE COURSE

Work safely. Keep aircraft moving.

This course equips learners with the essential knowledge and practical skills to work safely and efficiently on the airport ramp. It covers aircraft turnaround, baggage handling, marshalling, ground support equipment, cabin servicing and ramp safety procedures.

Participants build a clear understanding of the airside environment, standard operating procedures, communication protocols and personal safety practices required in a fast-paced airport setting.

IDEAL FOR

New entrants and working professionals pursuing airport ground operations careers.

LEARNING OUTCOMES

Operate with confidence.

1

GSE OPERATION

Operate belt loaders, tugs, GPU and air start units using standard safety procedures.

2

TURNAROUND SUPPORT

Assist coordinated baggage, water, lavatory, catering and cabin-service activities.

3

RAMP CONTROL

Apply SOPs for movement, equipment positioning and safe aircraft servicing.

4

COMMUNICATION

Coordinate clearly with ramp teams, cockpit crew, cabin crew and supervisors.

CURRICULUM / FOUNDATION

Understand the ramp.

01

Introduction to Airside & Ramp Services

Airside environment • ramp roles • stakeholders • ground time
• operational efficiency

02

Aircraft Characteristics & Turnaround Planning

Aircraft types • turnaround workflows • approach and parking •
critical zones • clearances

03

Cleaning, Catering & Other On-Ground Services

Cabin cleaning • catering logistics • water and lavatory service
• waste and hygiene

04

Ground Support Equipment (GSE)

Tugs • belt loaders • GPU • safe operation • positioning •
inspection • defect reporting

CURRICULUM / OPERATIONS

Coordinate the turnaround.

05

Standard Operating Procedures

GSE routing • positioning • ramp communication • timing • cockpit and cabin coordination

06

Airside Safety

PPE • hazard identification • risk mitigation • safe zones • movement control • incident reporting

07

Ramp Security Awareness

Airside regulations • access control • badge protocols • incident response • suspicious items

08

Future Trends in Ramp Service

Automation • digitalisation • electric GSE • sustainability • data-driven performance

LEARNING, APPLIED

Train for the real ramp.

A practical, instructor-led learning journey that connects procedures with safe operational decisions.

DISCOVER

Understand the airside environment, roles and risks.

PRACTISE

Work through equipment, sequencing and communication scenarios.

RESPOND

Identify hazards, follow SOPs and report incidents accurately.

PROGRESS

Build the confidence and discipline expected in ramp operations.

CAREER DIRECTION

Your pathway starts airside.

CAREER OPPORTUNITIES

- Ramp Agent
- Aircraft Marshaller
- Turnaround Supervisor
- Ground Handling Operations Officer
- Baggage Handler
- Turnaround Coordinator
- Ramp Security Officer
- Ramp Trainer / Instructor

ENTRY QUALIFICATION

Grade 10 / O-Level / Class 10 or equivalent

Working professionals seeking aviation ground-operations capability

THE ENTREPOT ADVANTAGE

Why Choose Entrepot?

Entrepot combines an industry-aligned curriculum and expert faculty to create a transformative learning experience. Our programmes develop strategic thinking, global competence and practical skills.

1 Approved by KHDA-Dubai and various international certifying organisations

2 Flexible class timings with online, offline and hybrid options available

3 Experienced and certified industry trainers

4 Convocations, webinars, seminars and career counselling

5 Grooming, CV and interview preparation, and other value-adds

6 Special offers, payment instalment plans and Student's Club membership

7 200+ approved and job-oriented courses

BEGIN YOUR JOURNEY

Ready for the ramp.

Build practical skills for safe, precise and efficient aircraft turnaround.
