High school diploma / secondary education or equivalent.

PREFERRED

Diploma or bachelor's degree in Business, Finance, Accounting, IT, Cybersecurity, Law, Risk Management, Audit or a related field.

EXPERIENCE

1-2 years recommended; not mandatory.

CURRICULUM / FOUNDATION

Govern with purpose.

01

Introduction to GRC

What is GRC? • Governance-risk-compliance relationship • GRC operating models • Three Lines Model • Roles and responsibilities • Culture and accountability

02

Corporate Governance

Good governance principles • Board and management responsibilities • Accountability and transparency • Policies and procedures • Ethics and culture • Governance structures • Decision-making and oversight

CURRICULUM / CONTROL

See risk. Strengthen control.

03

Risk Management

Risk concepts • Identification and assessment • Likelihood and impact • Inherent vs. residual risk • Treatment strategies • Appetite and tolerance • Risk registers • KRIs • Monitoring and reporting

04

Internal Controls

Purpose of controls • Preventive and detective controls • Design and effectiveness • Control testing • Gaps and deficiencies • Corrective and preventive actions • Risk and Control Matrices (RCM)

CURRICULUM / ASSURANCE

Comply. Assure. Recover.

05 Compliance Management

Regulatory requirements • Compliance obligations and frameworks • Risk assessment • Monitoring • Regulatory reporting • Policy management • Managing non-compliance

06 Audit & Assurance

Audit fundamentals and planning • Risk-based auditing • Evidence • Findings and observations • Corrective action plans • Reporting • Follow-up and closure

07 Business Continuity & Resilience

Business continuity management • Business Impact Analysis (BIA) • Continuity risks • Disaster recovery • Crisis management • Organisational resilience

LEARNING OUTCOMES

Turn insight into GRC action.

- Explain how governance, risk and compliance work together.
- Identify, assess, prioritise and monitor business and operational risks.
- Develop risk registers, assessments and treatment plans.
- Evaluate internal control design and effectiveness.
- Develop governance frameworks, policies and procedures.
- Establish compliance monitoring processes.
- Identify control gaps and recommend corrective actions.
- Apply risk appetite, risk tolerance and KRIs.
- Support audits, compliance reviews and management reporting.

PRACTICAL LEARNING

Learn by applying GRC.

Move beyond theory through realistic professional tasks that develop confidence, judgement and workplace-ready capability.

ASSESS

Identify risks, evaluate likelihood and impact, and prioritise action.

DOCUMENT

Build risk registers, control matrices, policies and audit evidence.

EVALUATE

Test controls, identify deficiencies and recommend corrective action.

REPORT

Translate GRC findings into clear management information and decisions.

RESPOND

Apply continuity, crisis and resilience concepts to business scenarios.

INTEGRATE

Connect governance, risk, compliance, control and assurance activities.

BEGIN YOUR GRC JOURNEY

**Build confidence.
Protect value.
Lead responsibly.**
