CERTIFIED INTERNATIONAL SUPPLY CHAIN PROFFESIONAL (CISP)

Face to Face/Virtual Instructor-Led Training

COURSE SUMMARY

In today's interconnected economy, organisations rely on efficient supply chain professionals to optimise procurement, inventory, logistics, sourcing, and operational performance. Skilled supply chain professionals play a vital role in ensuring the seamless movement of goods, services, and information while driving business efficiency and customer satisfaction.

The Certified International Supply Professional (CISP) programme is designed to provide participants with practical knowledge and globally recognised supply chain practices. The course develops an understanding of end-to-end supply chain operations, including procurement, inventory management, logistics, production planning, international sourcing, contract management, negotiation, and business ethics.

Through practical learning and industry-focused concepts, participants gain the skills required to confidently manage real-world supply chain challenges and contribute to continuous operational improvement across global organisations.

ENTRY QUALIFICATIONS

To enrol in this programme, participants should have:

- Basic proficiency in English.
- No prior Supply Chain or Procurement experience is required.
- The programme is suitable for both beginners and working professionals.
- Individuals currently working in procurement, logistics, warehousing, inventory, or operations will benefit from the programme.
- A basic understanding of business operations is advantageous but not mandatory.

Why Choose Certified International Supply Professional?

- Understand the complete supply chain cycle from sourcing to distribution.
- Develop practical knowledge of procurement, logistics, inventory, and production planning.
- Learn international sourcing strategies and global supply chain practices.
- Build expertise in supplier management, contract management, and negotiations.
- Gain practical skills applicable across multiple industries worldwide.
