CMA

**CERTIFIED MANAGEMENT
ACCOUNTANT COURSE**

Financial Strategy | Budget Planning | Performance Analysis

COURSE SUMMARY

The Certified Management Accountant (CMA®) credential, awarded by the Institute of Management Accountants (IMA), USA, is one of the world's most respected professional certifications for finance and accounting professionals.

Recognised in over 100 countries, the CMA validates your expertise in financial planning, analysis, performance management, strategic decision-making, internal controls, and professional ethics—equipping you with the skills needed to drive business performance and influence strategic decisions.

In today's competitive business environment, organisations seek finance professionals who can go beyond reporting numbers to deliver meaningful business insights. The CMA bridges the gap between finance and management, preparing professionals for leadership roles in corporate finance, management accounting, financial planning, and business strategy across global organisations.

ENTRY QUALIFICATIONS

To earn the CMA (USA) credential, candidates must:

- Hold a bachelor's degree (in any discipline) from an accredited college or university.
- Complete two years of relevant professional experience in management accounting or financial management (this requirement may be fulfilled before or within seven years after passing the CMA examinations).
- Maintain active membership with the Institute of Management Accountants (IMA), USA.

Why Choose CMA?

- Globally recognised professional qualification awarded by the IMA (USA).
- Develop expertise in strategic financial management, planning, budgeting, and performance analysis.
- Strengthen career opportunities across accounting, finance, and corporate leadership.
- Enhance your prospects with multinational corporations, Big Four firms, and senior finance positions.
- Gain practical, industry-relevant knowledge aligned with today's evolving business environment.

LEARNER PROFILE

This programme is ideal for:

- Accounting and finance professionals seeking career advancement.
- Commerce, accounting, and business graduates aspiring to leadership roles in finance.
- MBA students and graduates looking to earn a globally recognised professional credential.
- Auditors, Cost Accountants, Financial Analysts, and finance professionals seeking international career opportunities.
- Professionals aspiring to roles such as Finance Manager, Financial Controller, Chief Financial Officer (CFO), Business Analyst, and other strategic finance positions.

Build Strategic
Finance Expertise That
Drives Growth.

COURSE CONTENT

The CMA programme consists of two examination parts, designed to develop comprehensive financial, analytical, and strategic management capabilities.

Part 1: Financial Planning, Performance & Analytics

- External Financial Reporting Decisions
- Planning, Budgeting & Forecasting
- Performance Management
- Cost Management
- Internal Controls
- Technology & Analytics

Part 2: Strategic Financial Management

- Financial Statement Analysis
- Corporate Finance
- Decision Analysis
- Risk Management
- Investment Decisions
- Professional Ethics

Together, both parts provide a strong foundation in management accounting, financial analysis, strategic planning, and business decision-making.
