CERTIFIED PROCUREMENT INTERNATIONAL MANAGER (CPIM)

Face to Face/Virtual Instructor-Led Training

COURSE SUMMARY

Strategic procurement is no longer limited to purchasing goods and services—it has become a critical business function that drives organisational performance, strengthens supplier partnerships, and creates long-term competitive advantage. Procurement managers today are expected to make strategic decisions, manage risks, optimise costs, and align procurement activities with business objectives.

The Certified Procurement International Manager (CPIM) programme is designed to equip procurement and supply chain professionals with advanced knowledge and leadership capabilities in strategic procurement management. The course covers strategic sourcing, demand planning, supplier lifecycle management, procurement strategies, financial assessment, international trade, INCOTERMS, and global procurement practices.

Through practical learning, industry case studies, and internationally recognised best practices, participants will develop the expertise required to lead procurement functions, manage supplier performance, and contribute strategically to organisational success.

ENTRY QUALIFICATIONS

To enrol in this programme, participants should have:

- Proficiency in English.
- Relevant professional experience in Procurement, Purchasing, or Supply Chain Management.
- CPIP certification is advantageous.
- The programme is designed for professionals seeking leadership and managerial roles in procurement.

Why Choose Certified Procurement International Manager?

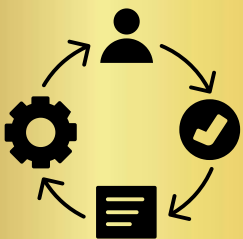

- Develop advanced procurement leadership and strategic sourcing capabilities.
- Strengthen supplier management and contract negotiation expertise.
- Learn financial assessment and procurement cost optimisation techniques.
- Gain practical knowledge of international trade, INCOTERMS, and procurement strategies.
- Build the leadership skills required to manage procurement teams and strategic business decisions.
