COURSE SUMMARY

Procurement plays a critical role in ensuring organisational efficiency, controlling costs, and building resilient supply chains. Skilled procurement professionals are responsible for strategic sourcing, supplier management, contract negotiation, and risk mitigation, enabling organisations to achieve sustainable business growth.

The Certified Procurement International (CPI) programme is designed to build core competencies in procurement and supply management. The course equips participants with practical knowledge in procurement planning, sourcing strategies, supplier evaluation, international procurement, contract management, negotiation, and procurement risk management.

Through practical learning and industry-focused methodologies, participants will develop the skills required to make informed procurement decisions, manage supplier relationships effectively, and contribute strategically to organisational success.

ENTRY QUALIFICATIONS

To enrol in this programme, participants should have:

- Proficiency in English.
- Working in Procurement or Supply Chain is advantageous.
- The programme is suitable for professionals new to procurement as well as those seeking to enhance their procurement expertise.
