

FIDIC CONTRACTS MANAGEMENT

TRAINING MODE:

Face to Face/Virtual Instructor-Led

WWW.ETIWORLD.AE

PROGRAMME OVERVIEW

COURSE SUMMARY

The FIDIC Contracts course provides participants with a practical understanding of the internationally recognized FIDIC (International Federation of Consulting Engineers) Conditions of Contract, which are widely used for the procurement and delivery of construction, engineering, and infrastructure projects worldwide.

This programme introduces the key principles of FIDIC contracts and explains how they are applied throughout the project lifecycle—from contract formation and project commencement to completion, claims management, dispute resolution, and contract close-out. Participants will gain an understanding of the various FIDIC contract forms, including the Red Book, Yellow Book, Silver Book, Green Book and others

WHO SHOULD ATTEND

ENTRY QUALIFICATIONS

At least 1-2 years of experience in construction or engineering projects.

- Fresh graduates may attend if they are working or planning to work in project management or construction contracts.

LEARNERS PROFILE

- Project Managers
- Construction Managers
- Site Engineers
- Contract Engineers
- Quantity Surveyors
- Procurement Engineers
- Planning Engineers
- Consultants
- Contractors

FOUNDATIONS AND FORMS

COURSE CONTENTS

MODULE 1 -

Introduction to FIDIC

- History of FIDIC
- Purpose of standard forms of contract
- FIDIC Golden Principles
- 1999 vs 2017 Editions
- Structure of FIDIC contracts
- International use of FIDIC

MODULE 2 -

Understanding the FIDIC Contract Suite

- Red Book
Construction projects where the Employer provides the design.
- Yellow Book
Plant and Design-Build projects where the Contractor is responsible for design.
- Silver Book
Engineering, Procurement and Construction (EPC/Turnkey) projects with greater contractor risk.
- Green Book
Short-form contracts for smaller or less complex works.
- Gold Book
Design, Build and Operate (DBO) projects.
- Blue Book
Dredging and reclamation works.
- White Book
Client-Consultant Model Services Agreement.

CONTRACT ARCHITECTURE

COURSE CONTENTS

MODULE 3 -

Contract Documents and Contract Formation

- Contract Agreement
- Letter of Acceptance
- Conditions of Contract
- Employer's Requirements
- Specifications
- Drawings
- Bills of Quantities
- Order of precedence
- Contract interpretation

ADMINISTRATION AND RISK

COURSE CONTENTS

MODULE 4 -

Roles, Responsibilities and Risk Allocation

- Employer's obligations
- Contractor's obligations
- Engineer's role
- Communication procedures
- Notices
- Record keeping
- Allocation of contractual risks
- Project programme requirements
- Baseline schedule
- Progress monitoring
- Delays
- Concurrent delays
- Extension of Time (EOT)
- Delay damages
- Suspension
- Taking-Over Certificate
- Performance Certificate
- Case Study: Evaluating an Extension of Time claim.

CHANGE AND PAYMENT CONTROL

COURSE CONTENTS

MODULE 6 -

Variations and Contract Changes

- Variations
- Change Orders
- Engineer's Instructions
- Valuation of Variations
- Cost implications
- Time implications
- Omissions
- Exercise: Pricing a Variation Order.

MODULE 7 -

Payment Procedures

- Advance Payment
- Interim Payment Certificates
- Measurement
- Valuation
- Retention
- Final Payment
- Final Account
- Payment timelines

CLAIMS AND REAL-WORLD DECISIONS

COURSE CONTENTS

MODULE 8 -

Claims Management

- Contractor's claims
- Employer's claims
- Notice requirements
- Contemporary records
- Cause-and-effect analysis
- Time Impact Analysis (TIA)
- Cost claims
- Loss and expense
- Preparing claim submissions
- Defending claims
- Workshop: Preparing a contractor claim.

MODULE 10 -

Practical Case Studies

- Participants will analyse real-world scenarios involving:
 - Contract interpretation
 - Delays
 - Variations
 - Claims
 - Payment disputes
 - Risk allocation
 - Contract administration

PROGRAMME RESULTS

COURSE OUTCOMES

By the end of the programme, participants will be able to:

- 1 Understand and apply FIDIC contract principles, including the key features, roles, responsibilities, and risk allocation under the major FIDIC contract forms.
- 2 Effectively administer FIDIC contracts, including contractual notices, communications, documentation, payment procedures, and compliance with contractual obligations.
- 3 Manage variations, delays, EOTs and contractual claims, including assessment, substantiation, supporting records, and cost/time implications.
- 4 Identify and manage contractual risks and disputes, with an understanding of dispute avoidance, DAAB, amicable settlement, and arbitration procedures.
- 5 Apply FIDIC contract management principles to real project situations through practical case studies, enabling participants to make better contractual decisions and minimize project and commercial risks.

MANAGE WITH CONFIDENCE.

THE ENTREPOT ADVANTAGE

Why choose Entrepot?

Entrepot combines industry-aligned curricula, experienced faculty and practical learning to deliver a transformative educational experience. Our programmes build strategic thinking, global competence and career-ready skills.

01

RECOGNISED PROGRAMMES

KHDA-Dubai approved programmes with certifications from leading international organisations.

02

INTERNATIONAL CERTIFICATION

Authorised International Certification Organisations include CILT, IFPSM, HOCK, ISO and others.

03

FLEXIBLE LEARNING

Online, offline and hybrid class options designed around working professionals.

04

INDUSTRY-EXPERT TRAINERS

Experienced and certified industry professionals bring practical insight to every session.

05

LEARNING BEYOND THE CLASSROOM

Complimentary convocations, webinars, seminars and career counselling.

06

CAREER-FOCUSED VALUE

Professional grooming, CV development, interview preparation and additional career services.

07

ACCESSIBLE PAYMENT OPTIONS

Special offers, flexible instalment plans and Student Club membership.

08

BREADTH OF CHOICE

200+ approved, industry-relevant and job-oriented courses.
