

AML

ANTI-MONEY
LAUNDERING TRAINING

Regulatory Compliance | Customer Monitoring | Financial Security

COURSE SUMMARY

Money laundering and terrorist financing continue to pose significant risks to financial institutions, designated non-financial businesses and professions (DNFBPs), and organisations operating in regulated sectors. Maintaining effective Anti-Money Laundering (AML) compliance is essential to safeguarding businesses, protecting financial systems, and meeting regulatory obligations.

The AML Compliance Training Programme provides participants with a practical understanding of Anti-Money Laundering (AML), Counter Financing of Terrorism (CFT), and Counter Proliferation Financing (CPF) requirements in line with UAE regulations and international standards.

Participants will gain practical knowledge of customer due diligence (CDD), enhanced due diligence (EDD), sanctions screening, transaction monitoring, suspicious activity reporting, risk assessment, internal controls, and regulatory compliance. The programme also explores the responsibilities of organisations in establishing and maintaining an effective AML compliance framework.

Designed around current UAE legislation, FATF Recommendations, and industry best practices, this programme equips professionals with the knowledge and confidence to identify financial crime risks and support organisational compliance.
