

PROFESSIONAL AI SKILLS PROGRAMME

Master the prompt. Multiply your impact.

AI Prompt Engineering Course

Write smarter prompts • Build repeatable workflows • Create better AI outputs

12 HOURS • 6 MODULES

THE PROGRAMME

Turn instructions into intelligent outcomes.

Generative AI is only as effective as the direction it receives. This practical, hands-on course teaches you to create clear, structured and high-impact prompts for content, research, marketing, business analysis, automation and problem-solving.

FACE-TO-FACE • VIRTUAL INSTRUCTOR-LED

No programming or prior AI experience required

LEARNER PROFILE

Professionals, entrepreneurs, freelancers, students and career switchers.

ENTRY

Basic computer, internet and office-productivity skills.

DELIVERY

Face-to-face or virtual instructor-led learning with flexible timings.

BUILT FOR AMBITIOUS PROFESSIONALS

Practical skill. Immediate advantage.

— Marketing & content professionals

— Freelancers, consultants & coaches

— Developers & tech-savvy professionals

— Entrepreneurs, designers & product teams

— Analysts & business strategists

— Students & career switchers

WHAT YOU WILL GAIN

PRECISION

Clearer, more relevant AI responses.

CREATIVITY

Better ideas, content and campaigns.

SPEED

Repeatable prompts for everyday work.

CONTROL

Evaluate, refine and improve outputs.

CURRICULUM / FOUNDATION

Understand the model. Engineer the response.

01

Introduction to Prompt Engineering

Prompt engineering • Generative AI vs. traditional AI • The prompt engineer's role

02

Language Models & How They Think

LLMs: ChatGPT, Gemini and Claude • Tokens • Context windows • Response behaviour

03

Prompt Design & Patterns

Instructional, zero-shot and few-shot prompts • Reusable templates • Multi-step reasoning frameworks

LEARN BY DOING

Live demonstrations • guided practice • real workplace examples

CURRICULUM / APPLICATION

Prompt for real work.

04

Use Case-Based Prompting

Content: blogs, posts and emails • Business: strategy, SWOT and OKRs • Marketing: SEO, ads, AIDA and PAS • Coding: generation, debugging and refactoring

05

Advanced Prompting & AI Tools

Image and video prompting • Role-based prompting • Building multi-step agents and practical workflows

HANDS-ON APPLICATION

Build prompt systems you can take back to your role and use immediately.

Content • SEO • advertising • strategy • SWOT • OKRs • coding • debugging • refactoring

CURRICULUM / RESPONSIBLE PERFORMANCE

Test. Refine. Trust the result.

06

Ethics, Accuracy & Prompt Optimisation

Hallucinations and how to minimise them • Data privacy • Responsible use • Testing and refining outputs

01 DEFINE

Set the task, audience and success criteria.

02 DESIGN

Structure context, instruction and format.

03 TEST

Compare outputs and identify weaknesses.

04 REFINE

Improve constraints, examples and clarity.

LEARNING OUTCOMES

From prompting to performance.

- 1 Design structured prompts for accurate, relevant responses
- 2 Create efficient workflows for repetitive tasks
- 3 Apply AI to content, marketing, analysis and operations
- 4 Support coding, strategy, problem-solving and innovation
- 5 Evaluate and improve weak AI-generated outputs
- 6 Use AI responsibly, ethically and professionally

YOUR CAPABILITY AFTER THE COURSE

You leave with a repeatable method for briefing AI, testing its work and improving the result - not just a collection of one-off prompts.

WHY ENTREPOT

Learning, elevated.

Industry-aligned training, expert faculty and practical learning designed for visible career impact.

RECOGNISED

KHDA-Dubai approved, with international certification pathways.

FLEXIBLE

Online, offline and hybrid options with professional-friendly timings.

EXPERT-LED

Experienced, certified industry trainers and hands-on learning.

CAREER-READY

Career counselling, grooming, CV and interview preparation.

CONNECTED

Convocations, webinars, seminars and Student's Club membership.

CHOICE

200+ approved, job-oriented courses plus instalment options.

BEGIN YOUR AI JOURNEY

Better prompts. Bigger possibilities.

Create with confidence. Work with intelligence. Lead with AI.
