

AML FOR INSURANCE COMPANIES, BROKERS & AGENTS

6 HOURS / 1 DAY

UAE AML / CFT / CPF • CBUAE-ALIGNED

TARGET AUDIENCE

Insurance company staff, brokers, agents, compliance officers, MLROs, underwriting teams, claims teams, internal auditors and senior management.

STRENGTHEN COMPLIANCE. MANAGE RISK. BUILD TRUST.

Practical AML training designed for the insurance sector.

COURSE OUTLINE

Modules 1-3 • Regulatory framework, due diligence and insurance red flags

BUILD A STRONG AML FOUNDATION FOR INSURANCE OPERATIONS

01

UAE AML & CBUAE FRAMEWORK FOR INSURANCE

- UAE AML/CFT/CPF requirements
- CBUAE supervisory expectations
- Role of UAE FIU and goAML
- Responsibilities of Compliance Officer and senior management

02

CUSTOMER DUE DILIGENCE

- Individual and corporate KYC
- Policyholder and beneficiary identification
- UBO identification
- Customer risk assessment
- PEP screening
- Sanctions/TFS screening
- Source of Funds
- Source of Wealth for higher-risk customers
- Enhanced Due Diligence

03

INSURANCE AML RED FLAGS

- Large premiums inconsistent with customer profile
- Third-party premium payments
- Early policy surrender
- Frequent beneficiary changes
- Policy assignment shortly after inception
- High-value or unusual policy funding
- Multiple policies without clear purpose
- Transactions involving high-risk jurisdictions
- Unexplained source of premium funds

COURSE OUTLINE

Modules 4-6 • Reporting, sanctions and CBUAE inspection readiness

FROM SUSPICION TO ESCALATION — KNOW WHAT TO DO, DOCUMENT AND REPORT

04

STR/SAR & goAML REPORTING

- Identifying suspicious activity
- Internal escalation
- Compliance investigation
- STR/SAR decision-making
- goAML reporting
- Confidentiality and tipping-off requirements

05

SANCTIONS, PEP & PROLIFERATION FINANCING

- UAE and UN sanctions screening
- Policyholder and beneficiary screening
- PEP risk management
- Potential sanctions matches
- Escalation and freezing requirements
- Basic Proliferation Financing awareness

06

CBUAE AUDIT & INSPECTION READINESS

- AML policies and procedures
- Business Risk Assessment
- Customer Risk Assessment
- KYC and beneficiary records
- Sanctions-screening evidence
- STR/SAR files
- Staff training records
- Compliance monitoring
- Independent AML audit
- Corrective-action tracking

PRACTICAL EXERCISE

Participants review a fictional insurance customer and policy transaction to determine whether KYC is complete, the beneficiary is identified, AML red flags or EDD apply, escalation or STR/SAR should be considered, and what evidence should be retained for a CBUAE inspection.

PRACTICAL APPLICATION & LEARNING OUTCOME

LEARNING OUTCOME

By the end of the 6-hour programme, participants should be able to identify AML risks in insurance transactions, conduct effective customer due diligence, recognise suspicious policy activity, understand reporting and sanctions obligations, and prepare for a CBUAE regulatory inspection.

PRACTICAL CHECKLIST

- Is KYC complete?
- Is the beneficiary properly identified?
- Are there AML red flags?
- Is EDD required?
- Should the matter be escalated?
- Would STR/SAR reporting be considered?
- What evidence should be retained for a CBUAE inspection?

1

RISK AWARENESS

Recognise high-risk behaviour across customers, policies, premiums and beneficiaries.

2

REPORTING CONFIDENCE

Escalate concerns and understand STR/SAR, goAML and tipping-off requirements.

3

INSPECTION READINESS

Maintain evidence, controls and records that support CBUAE supervisory reviews.
