

TRADE-BASED AML & COMPLIANCE

COMPLIANCE FOR UAE TRADING COMPANIES

A practical one-day programme for owners and teams across finance, compliance, procurement, sales, logistics, import/export and internal audit.

6 HOURS • 1 DAY

Practical, sector-focused compliance training

Know the counterparty. Read the trade.

Build a practical understanding of AML, counterparty due diligence and Trade-Based Money Laundering red flags.

1

UAE AML & Trade Compliance Framework

- Overview of UAE AML/CFT/CPF requirements
- Why trading companies are vulnerable to money laundering
- Trade-Based Money Laundering (TBML)
- Sanctions and high-risk jurisdictions
- Internal compliance responsibilities

2

Customer, Supplier & Counterparty Due Diligence

- Customer KYC
- Supplier due diligence
- Ultimate Beneficial Owner identification
- PEP screening
- Sanctions screening
- Country-risk assessment
- Commercial purpose of transactions

3

TBML Red Flags

- Over-/under-invoicing
- Multiple invoicing
- False or phantom shipments
- Misdescription of goods
- Unusual routing
- Third-party payments
- Price inconsistencies
- No clear commercial rationale
- High-risk countries/counterparties

Control the transaction. Escalate the risk.

Document review, sanctions screening and practical decision-making for import/export transactions.

4

Document & Payment Controls

- Match invoice, purchase order & packing list
- Check Bill of Lading / Air Waybill details
- Shipper and consignee verification
- Payment party verification
- Bank-country mismatch
- Customs/shipping-document review
- Escalation of discrepancies

5

Sanctions & Suspicious Activity

- UAE and UN sanctions screening
- Screen customers, suppliers and UBOs
- Potential sanctions matches
- Dual-use goods & PF awareness
- Internal suspicious activity escalation
- Record keeping and audit trail

6

Compliance Audit Readiness

- AML/TBML policy
- Customer/supplier due diligence records
- Sanctions-screening evidence
- Transaction/document review records
- High-risk transaction files
- Employee training records
- Internal review & corrective actions

PRACTICAL EXERCISE

Review a fictional import/export transaction and decide whether due diligence, documents, TBML indicators, sanctions/country risk and payment structure require escalation.
